

Call for partner for Leonardo mobilities in the framework of MWGR-mobility for welfare GR (Gothenburg region)

The City of Gothenburg is involved in the European LLP Leonardo project MWGR - Mobility for Welfare GR (Gothenburg Region). The Göteborg Region Association of Local Authorities (GR) is a co-operative organization uniting thirteen municipalities in western Sweden. MWGR covers 150 mobilities in the region of GR and are focusing on different aspects of welfare. The duration of the project is 2 years and will end in spring 2015.

The administration of The City of Gothenburg provides services to over half a million residents in Gothenburg. The services provided of the district include pre-school, school, elder care, home health care, libraries, leisure activities, support for people with disabilities and social services. The district administration is also working with security, electricity, environment and public health in the district.

The City of Gothenburg is looking for an organization for exchanging experiences and acquiring new skills to improve and develop the local work and introducing the European dimension to the topic. The organization should therefore be involved in the design and delivery of social end employment services, with a special interest in topics like social inclusion of people with socio/economic challenges, disability and long-term unemployment.

Social workers in collaboration with the Police

Administration for Allocation of Social Welfare

Contact person: Anna Byström <mailto:anna.bystrom@socialresursforvaltning.goteborg.se>
