| Context of our project | <p>Federation of MFR in Pays de la Loire is developing its European scale, by promoting youth and trainers' mobility. Our ambition is to develop a European culture in MFR, for all youngsters (from 14 to 20 years old). Our European identity needs to be strengthened. The socioeconomic context in Pays de la Loire, France and Europe requires us, as trainers, administrators, and parents to be more invested in the training of youth, in an education opened to others, a civic education that promotes independence and develops qualifications and skills for their future jobs.</p> <p>Parents are key actors of the education of young people; they have an essential role as partners in their training course. Their commitment to the project of the young, their support and confidence promote their success. But parents are often away from the European scale of training and mobility of young people, European Union is not well known by parents who don't really see any interest in Europe.</p> <p>We also note that in our MFR, the links between teaching staff members, professionals and parents need to be strengthened.</p> <p>That is why we want through this project, to strengthen the supporting role of parents, through their involvement in education for youth, especially in European mobility and open-mindedness.</p> |
| Objectives of our project | <ul style="list-style-type: none"> ❖ Educate and reassure parents about the interests of a European education for young people ❖ Involve parents in the training trail of young people in Europe ❖ Develop an European culture of MFR in our region Pays de la Loire |
